

INTERNET KIOSK

ZIK - 401I

ZIK - 401I is an ideal model for you if you wish to offer internet enabled services or internet browsing facility in a public place. The intuitive application and vandal proof keyboard makes it suitable, even if there is no attendant beside it.

The kiosk features a 17" display, a full function spill proof metallic keyboard with touch pad and options for multiple types of internet connectivity. Options are there to also include touch in the display in special cases where touch is required for ease of use and the keyboard can be for inserting information.
